

## SPORTS DAY CAMPS

### BASKETBALL

#### WILDCAT GIRLS BASKETBALL

June 15-18, 9 a.m.-3 p.m. • \$150 (lunch included)

Students entering grades 8-12

This comprehensive program focuses on individual shooting technique, offensive skill development, and defensive prowess. Wildcat campers will walk away with overall improvements skill, effort, and teamwork.

#### WILDCAT BOYS & GIRLS BASKETBALL

Session 1: June 22-25 • Session 2: July 27-30

9 a.m.-4 p.m. • \$135 (lunch included)

Students entering grades 3-9

Jump into four days of fun-filled skill-building games and competitions. Finesse your shooting. Improve ball handling. And have tons of fun while you're at it! Plus, we'll send you home with a free t-shirt.

### SOCCER

#### WILDCAT YOUTH SOCCER

July 6-9, 9 a.m.-noon • \$100 (lunch not included)

Students entering grades 1-6

Focus on fundamentals. Practice everything from dribbling and passing to shooting and technique during this exciting program led by Penn College soccer coaches. Campers are asked to bring a soccer ball, shin guards, water bottle, proper footwear (cleats and indoor sneakers), sunscreen, and a snack each day. Everyone will receive a free t-shirt.

### DEFINE YOUR FUTURE

Learn, grow, and discover your tomorrow. With 100+ diverse majors on campus, pre-college programs are the way to explore your options. Hands-on education is here. You should be too.

### EARN MORE

Ask you how you can earn up to \$2,000 in Penn College tuition scholarships by attending Pre-College programs.

### REGISTER ONLINE

## JUNE SESSION

### ARCHITECTURE ODYSSEY

June 14-18 • \$500

Students entering grades 9-12

Discover the world of architecture and sustainable design through design studios and seminars, field trips to building sites, and visits with local architects.

### ASPIE *Autism Spectrum Post-Secondary Interest Experience*

June 18-19 • \$75

Students entering grades 10-12

Students with autism spectrum disorders, and their parents, will obtain valuable information about post-secondary education and career exploration.

### AUTOMOTIVE TECHNOLOGY

June 14-17 • \$375

Students entering grades 10-12

Enjoy working with your hands? Considering a career as an auto tech? Get to work in our advanced learning labs and see if a career in automotive is right for you.

### AVIATION

June 14-17 • \$375

Students entering grades 10-12

Discover the world of aviation maintenance via hands-on applications of sheet metal, composite materials, and engine operation. A tour of a vintage aircraft collection is included.

### ENGINEERING

June 17-18 • \$250

Students entering grades 10-12

Explore engineering concepts and careers such as robotics and electronics, plastics and polymer engineering, machining, and welding.

### FUTURE RESTAURATEURS

June 14-18 • \$500

Students entering grades 9-12

Join chefs from Penn College's hospitality department for a fun-filled program focusing baking and pastry arts, culinary arts, and hospitality management.

### HEALTH CAREERS

June 14-16 • \$250

Students entering grades 9-12

Discover a variety of health careers including dental hygiene, nursing, physical therapy assistant, physician assistant, surgical technology, and more.

### INFORMATION TECHNOLOGY

June 14-16 • \$250

Students entering grades 10-12

Explore the world of computing with hands-on sessions covering cybersecurity, programming, and networking.

## JULY SESSION

### AUTOMOTIVE RESTORATION

July 19-22 • \$375

Students entering grades 10-12

Learn what it takes to return vintage cars and trucks to their former glory while immersing yourself in the world of automotive restoration. Included will be a tour of a vintage car museum.

### DESIGN, BUILD, & GROW LANDSCAPE & HORTICULTURE

July 19-22 • \$375

Students entering grades 10-12

Workshops will explore working in greenhouses, floral design, landscape design, and landscape equipment operation.

### DIESEL TRUCK & HEAVY EQUIPMENT

July 19-22 • \$375

Students entering grades 10-12

Looking for a hands-on career in an in-demand field? This four-day program will introduce you to options in diesel technology and heavy equipment maintenance and operation.

### FUNDAMENTALS OF EMERGENCY RESPONSE

July 19-21 • \$250

Students entering grades 9-12

Learn first aid essentials for the most common emergencies, including how to recognize them, call for help, and perform lifesaving skills.

### GRAPHIC DESIGN SUMMER STUDIO

July 19-22 • \$375

Students entering grades 10-12

Summer Studio guides participants through the graphic design process — ideation, concept development, and production — to create real-world visual design solutions.

### HALL OF FAME *(Finance, Accounting, Marketing, & Entrepreneurship)*

July 19-22 • \$375

Students entering grades 9-12

Have you ever thought of opening your own business or wondered how a business operates? Learn how to become an entrepreneur with skills in financing, accounting, and marketing.

### HAVE YOUR CAKE & DECORATE IT TOO

July 19-22 • \$375

Students entering grades 9-12

You've seen the pros do it on TV. Now you can test your cake baking and decorating skills and see how they stack up. And, of course, you can eat it when you're done!

### THINGAMAJIG FABRICATORS

July 19-23 • \$325

Students entering grades 9-12

Experience the marvels of modern manufacturing. Learn how everyday objects are designed and fabricated. Throughout this program, you'll work with 3D design software, run mills and lathes, and weld varying projects.

## DAY CAMPS

### MY TOMORROW: MIDDLE SCHOOL EXPLORATION

June 22-26, 8:30 a.m.-4 p.m. • \$150 (lunch included)

Students entering grades 6-8

At Penn College, we want younger students to join the summertime fun, too! My Tomorrow is designed to give middle-schoolers an opportunity to preview a variety of career possibilities from engineering to healthcare.

### SUMMER MAKER MISSION

July 20-22, 9 a.m.-4 p.m. • \$90 (lunch included)

Students entering grades 6-8

Explore The Dr. Welch Workshop: A Makerspace at Penn College where you'll have access to a combination of design, engineering, and fabrication tools within a dynamic and collaborative learning setting.
