

# JERSEY SHORE AREA SCHOOL DISTRICT

LEARNING | GROWING | SUCCEEDING

6/30/2020

Greetings Jersey Shore School District Community,

The Pandemic Team has been working hard to be sure that schools are ready to safely educate your children this fall. Part of our planning process has been to draft the state required Health and Safety Plan. You can review the draft plan [here](#). We have also created a survey to get your input in preparing for returning students. Please review the plan before taking the survey. The survey will be open until August 7, 2020 and can be accessed [here](#).

The plan will be adjusted based on your feedback before it is presented to the board at the end of July.

We are making plans to provide devices to students in grades K-5 so that we can make learning as accessible as possible when we return to school. This includes the event that schools are closed again if there is a resurgence of the virus. The district will be as prepared as possible to eliminate any disruption to education.

As always, the health and safety of your children are important to all of us and we are working to be sure that our schools can reopen safely.

Sincerely,

*Brian J. Ulmer*

District Service Center
