Camp Susque

Camp Susque is a non-denominational Christian summer camp with sessions for campers entering first grade through eleventh grade, as well as great summer job opportunities for teens and college students.

For each of our youth camps, your child will join a cabin/tent group made up of one counselor and 6-8 other campers in their same age group. This provides them with the security and context of a small group in which they can bond, share, and explore. Many of our campers return time after time just to experience this small group, community feel. They state it frees them to feel safe enough to be themselves, to grow and try new things, and to open up about what is going on in their lives with others their same age.

EFEC's Summer day camp program is specially themed and programmed for campers ages 6-17 (completed grades K to 11th) to match their energy and apply their creativity. Portions of the day will be spent in small group games and events, but other portions will sub-divide campers into even more targeted skill level and age-appropriate activities. We're small and personal. Our family-like group is limited to 15 campers, creating a highly supervised camper to staff ratio.
